NOTICE OF AND REASONS FOR ALLOWANCE

Terminal Disclaimer

1. The terminal disclaimer filed on 1 June 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,730,233 and US 6,966,979 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-17 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the device and method claimed by applicant. In particular, the prior art fails to disclose or suggest a method for controlling a dialysis machine comprising the steps of providing a two-compartment filter, connecting the fluid lines and circulating fluid as claimed, determining the value of a first parameter associated with the liquid flow in the first compartment, determining the claimed value of a second parameter of the fluid, calculating a filtration factor as a function of the first and second parameter, and controlling fluid flow as a function of the calculated filtration factor.

The best prior art of record, US 6,471,782 to Kitaevich, discloses measuring and calculating parameters of fluid flowing through a dialysis system, but fails to disclose the steps of calculating a third parameter based on the measured values of first and second parameters and controlling fluid flow based on the third parameter, as claimed by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
